SDC Platinum

If you cannot use SDC Platinum after logging in on this computer, you may need to change the date-format as follows:

1) Select the option in the lower left corner of the desktop: Start > Control panel

2) Click the option: Clock, Language and Region

3) Now select: Region and Language
4) In the next popup screen change the following:

a. Format: **English (United States)**
b. Short date: **MM/dd/yy**
c. Click the button **Apply** (bottom right corner)

N.B.: Afterwards, when you log into another VU computer on campus you may have to change the date format again to the usual European / Netherlands date format!
